Notice of Publication Correction

Gazette 12, 03 June, 2024

Nos: T0003591

Word/Mark:

Class 36 should have read:

- **36 for** International and domestic money remittance services, namely, facilitating transfers of electronic cash equivalents; virtual currency exchange transaction services for transferable electronic cash equivalent units having a specified cash value; electronic funds transfer, namely, transmission of currency via computer terminals and electronic devices; electronic funds transfer, namely, transmission of virtual currency and digital currency via electronic communication networks; automated clearing house (ACH) transaction processing services; processing payments to third parties; direct debit account services in the nature of debit transaction processing services provided via mobile applications and a website; electronic credit and debit transactions; electronic debit card and credit card transaction processing.

Gazette 13, 18 June, 2024

Nos: T0003499

Word/Mark: AWS

Class 42 should have read:

- **42 for** Information technology (IT) consulting services; computer services, namely, cloud hosting provider services; hosting of digital content on the Internet; cloud hosting provider services of electronic databases and virtual computing environments; server hosting; computer time sharing services; providing virtual computer systems and virtual computer environments through cloud computing; computer services, namely, providing virtual application, web, file, database and storage servers of variable capacity to others; computer services, namely, scaling services for providing variable computing and electronic data storage capacity to others; administering and maintaining virtual computing environments for others; electronic data storage; Application service provider (ASP), namely, hosting computer software applications and databases of others; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up cloud computing environments for others; computer software rental; consulting and providing information relating to information technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, video and computer game development, database design and development and data analytics, electronic data storage, data warehousing, digital data archiving, data and information security, computer networking, mobile computing, and the Internet of Things (IoT); planning, design and implementation of computer technologies for others; software configuration management services; data and application migration services; data mining services; data backup and data restoration services; remote online backup of computer data; data encryption and decryption services; data warehousing; technical support services, namely, troubleshooting of computer software problems; computer services, namely, monitoring the web sites of others to improve their scalability and performance; computer services, namely, enforcing, restricting and controlling access privileges of users of computing and network resources based on assigned credentials; providing search engines for obtaining data via communications networks; computer services, namely,

creating indexes of computer network based information, sites, and other resources available on global computer networks for others; computer services, namely, unauthorized user and unauthorized software intrusion detection and protection; computer services, namely, web traffic filtering; computer services, namely, providing virtual data storage and caching to others; cross platform conversion of digital content into other forms of digital content; digital compression of computer data; hosting an online community website featuring shared communications between community members interested in technology, cloud computing, web services, software, software as a service (SaaS), artificial intelligence, software development, game development, databases, data processing and analytics, data storage, data warehousing, data archiving, data and information security, networking, mobile computing, and the Internet of Things (IoT); software as a service (SaaS) featuring software for data processing; software as a service (SaaS) featuring software for virtualization; software as a service (SaaS) featuring software for managing and deploying virtual machines to a cloud computing platform; software as a service (SaaS) featuring software for use in cloud infrastructure management and automation; software as a service (SaaS) featuring software for running cloud computing based applications; software as a service (SaaS) featuring software that provides access to cloud based scalable computing resources and data storage; software as a service (SaaS) featuring software for monitoring cloud and application performance; software as a service (SaaS) featuring software for event logging, reporting, analysis and alert generation; software as a service (SaaS) featuring software for collecting, editing, modifying, organizing, synchronizing, integrating, monitoring, transmitting, storage and sharing of data and information; software as a service (SaaS) featuring software for data, desktop and application streaming; software as a service (SaaS) featuring software for data backup, recovery and archiving; software as a service (SaaS) featuring software for data transfer and migration; software as a service (SaaS) featuring software for data protection and data security; software as a service (SaaS) featuring software for data warehousing; software as a service (SaaS) featuring database management software; software as a service (SaaS) featuring software for creating, configuring, provisioning and scaling databases; software as a service (SaaS) featuring software for storing, retrieving, caching, extracting, formatting, structuring, systematizing, organizing, indexing, processing, querying, analyzing, replicating and controlling access to data; software as a service (SaaS) featuring software for logging changes within a database; software as a service (SaaS) featuring software for improving database performance; software as a service (SaaS) featuring software for configuring, provisioning and scaling data cache storage for databases; software as a service (SaaS) featuring software for computer network management and automation; software as a service (SaaS) featuring software for monitoring computer network access and activity; software as a service (SaaS) featuring user authentication software; software as a service (SaaS) featuring cryptography software; software as a service (SaaS) featuring software for monitoring, tracking, logging, analyzing, auditing and reporting in the field of regulatory and information security compliance; software as a service (SaaS) featuring software for monitoring, tracking, logging and analyzing computer network events, user activity, changes to resource activity and security statistics; software as a service (SaaS) featuring network security software; software as a service (SaaS) featuring network threat detection software; software as a service (SaaS) featuring network access management and monitoring software; software as a service (SaaS) featuring search engine software; software as a service (SaaS) featuring software for searching databases; software as a service (SaaS) featuring software for creating searchable databases of information and data; software as a service (SaaS) featuring software that provides real time, integrated business management intelligence by combining information from various databases; software as a service (SaaS) featuring business analytics software for collecting and analyzing data to facilitate business decision making; software as a service (SaaS) featuring software for use in big data analysis; software as a service (SaaS) featuring software that automates the processing of un structured, semi structured and structured information and data stored on computer networks and the Internet; software as a service (SaaS) featuring e commerce software to allow users to perform electronic business transactions via a global computer network; software as a service (SaaS) featuring software for operating and managing call centers and contact centers; software as a service (SaaS) featuring software platforms for providing customer service and customer support; software as a service (SaaS) featuring software for speech, facial and optical character recognition; software as a service (SaaS) featuring software for converting text to speech; software as a service (SaaS) featuring software for image analysis, identification, processing, conversion, cropping, resizing and enhancement; software as a service (SaaS) featuring software for video streaming and for high speed formatting and processing of audio and video streams; software as a service (SaaS) featuring software for deploying live and on demand video content; software as a service (SaaS) featuring software for provisioning and dynamically scaling video processing, delivery, and storage services; software as a service (SaaS) featuring software used to process, convert, transcode, encode, decode, encrypt, decrypt, distribute and manipulate digital video, image and audio files; software as a service (SaaS) featuring software for inserting and removing advertising and other content into video streams; software as a service (SaaS) featuring software for digital rights management; software as a service (SaaS) featuring software for time shifted television viewing; software as a service (SaaS) featuring game software; software as a service

(SaaS) featuring game engine software; software as a service (SaaS) featuring software to manage, connect, and operate internet of things (IOT) electronic devices; software as a service (SaaS) featuring software for enabling electronic devices to operate and communicate locally while retaining the benefits of analytics and high level services in the cloud; software as a service (SaaS) featuring software development tools; software as a service (SaaS) featuring software for application development, testing, deployment and management; software as a service (SaaS) featuring software for managing software development projects and teams; monitoring of computer systems and databases for security purposes in the nature of protecting data and information from unauthorized access; computerized security services, namely, electronically monitoring, detecting and reporting on suspicious and abnormal patterns of computer network access or activity in the nature of protecting data and information from unauthorized access; providing user authentication services using single sign on and multi factor technology for accessing a secure virtual computing environment; providing authentication services via online non downloadable software for establishing and transmitting security credentials for domain name services; Application service provider, namely, providing, hosting, managing, developing and maintaining applications, software, websites and databases in the fields of ecommerce, online payments, order queuing, website design, data storage and shared computing capacity scaling services.
