Word/Mark: **CONCERT**

Class List:

- **09 for** Computers; quantum computers; computer hardware; Computer hardware and computer software for information technology analysis and data management; computer hardware and computer software for application development; computer hardware and computer software for cloud computing; computer hardware and computer software for cognitive computing; computer hardware and computer software for artificial intelligence; computer hardware and computer software for blockchain technology; computer hardware and computer software for quantum computing and quantum programming; computer hardware, namely, magnetic band units (data- processing), magnetic tapes, printed circuits, integrated circuits, computer keyboards, compact disks [audio-video], optical disks, computing couplers (data processing), diskettes, magnetic data carrier; computer hardware, namely video screens, scanners [data processing equipment], printers, interfaces (data processing), readers (data processing), computer software (recorded programs) for use in data processing, microprocessors, modems, monitors, computers, computer memories, computer peripherals; Power adapters for computers; Wireless adapters for computers; components for computers; data processing equipment; data processing apparatus for data and information management; semiconductors; machine readable electronic media; magnetic disks; disk drives; tape recorders; calculating machines; cash registers; facsimile machines; video recorders; video tapes; electric batteries; computer chips; circuit boards; computer hardware, namely, communications computing servers; computer carrying cases; computer interface boards; computer cables and computer cable parts; computer fax modem cards; computer accessories, namely, screen filters, mouse pads, radio pagers, joysticks; electronic power converters, namely, digital to analog, analog to digital and step-by-step voltage switches; computer mice; integrated circuit cards and smart cards; integrated circuit adapters and smart card readers; card readers for integrated circuit cards and smart cards; microcomputers; electrical power supplies; projectors; remote controls for computers; surge protectors and uninterrupted power supply apparatus; point of sale terminals; computer servers; computer storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; computer programs, downloadable; computer programs, recorded; computer software platforms, recorded or downloadable; computer software applications, downloadable; software for video games; computing operating system software and programs; computer software used for accessing a global computer network; computer software used for document management; computer software used for data base management; computer software used for locating, retrieving and receiving text, electronic documents, graphics and audiovisual information on enterprise-wide internal computer networks and local and wide-area global computer networks; computer software used for software development and web authoring and user manuals in electronic format sold as a unit with these products; computer software for use in controlling the operation and execution of computer systems, programs, and networks; computer software for use in connecting disparate computer networks and systems, computer servers and storage devices; computer software for linking together computers and for enabling computing across a globally accessible network; computer software for managing hardware, software and processes that exist within an information technology environment; interactive computer systems combining hardware and software for use in management and analysis of data and digital instructional manuals sold as a unit with these products; cloud computing system, namely communications networks integrating computer hardware and software for dynamic provisioning, virtualization, and consumption metering of computer resources; recorded or downloadable cloud-computing software for deploying and managing virtual machines to a cloud computing platform; computer systems, namely, computer hardware and computer software for developing and integrating artificial intelligence, namely, machine learning, deep learning and natural language processing which is capable of collecting, organizing and analyzing data; computer systems, namely, computer hardware and computer software for integrating Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; computer software for developing, building and operating blockchain applications; computer hardware and computer software for developing and testing quantum algorithms; documentation and instruction manuals in electronic format recorded on machine-readable electronic media relating to computers or computer programs; electronic publications, downloadable; electronic publications recorded on computer media, namely, user manuals, guides,

brochures, information sheets, written presentations and teaching materials, in the field of computer, computer network, computer storage, computer operating systems, information technology, database management, cloud computing, artificial intelligence, blockchain technology and quantum computing.

- **35 for** business management and management consultancy; providing business information; distribution of prospectuses; distribution of samples; document reproduction; centralized data processing management; business management consulting services and business consulting services; business development services; electronic data processing; data processing services on artificial intelligence; data processing services on cognitive computing; data processing services on cloud computing; data processing services on blockchain technology; data processing services on information management; data processing services on quantum computing and quantum programming; arranging and conducting exhibitions for advertising and business purposes in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, telecommunications and electronic business transactions via a global computer network; business consulting services for artificial intelligence; business consulting services for computer systems that integrate Natural Language Processing (NLP), Computational Linguistics (CL), Information Retrieval (IR) and Machine Learning (ML) which is capable of understanding general human queries and formulating responses; business consulting services for cloud computing; business consulting services for blockchain technology; business consulting services for quantum computing, quantum programming and for developing and testing quantum algorithms; business consulting services for information technology; analyzing and compiling business data; systemization of data in computer databases; business advice for companies on the use of computer equipment (hardware).
- **41 for** Educational services; coaching [training]; organization and management of conferences, seminars and congresses; exhibition services for cultural or educational purposes; organization of cultural events and activities; educational services, namely, conducting classes, seminars, conferences, webinars and workshops in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, telecommunications and computers global networks; training in the field of computers, computer services, information technology, artificial intelligence, cloud computing, blockchain technology, quantum computing, database management, image and audio processing technology, telecommunications and computers global networks; conducting entertainment exhibitions in the nature of information technology demonstrations; entertainment services, namely, providing on-line computer games; conducting entertainment exhibitions, namely, real-time athletic competitions via a global computer network; editing of books and journals; conducting cultural or educational exhibitions for advertising or commercial purposes.
- **42 for** Computer programming; Software as a service (SaaS) services featuring software for data management; software as a service (SaaS) services featuring software for cloud computing; software as a service (SaaS) services featuring software for artificial intelligence; software as a service (SaaS) services featuring software for cognitive computing; software as a service (SaaS) services featuring software for blockchain technology; software as a service (SaaS) services featuring software for quantum computing and quantum programming; software as a service (SaaS) services featuring software for constructing, analyzing and running quantum programs and quantum algorithms; software as a service (SaaS) services featuring software for developing and testing quantum algorithms; computer programming services and computer consulting services on artificial intelligence; computer programming services and computer consulting services on cognitive computing; computer programming services and computer consulting services on information management; computer programming services and computer consulting services on data management; computer programming services and computer consulting services on cloud computing; computer programming services and computer consulting services on blockchain technology; computer programming services and computer consulting services on quantum computing; computer programming services and computer consulting services on software as a service (SaaS); design, installation, updating and maintenance of computer software; computer software and hardware design for others, and consultation services in the field of computers; computer services, namely, designing, creating and maintaining web sites for others; computer systems analysis, data base and network integration, computer programming for others all for use in commercial interactions over global computer networks; technical support services, namely, troubleshooting of computer programs and software problems; design of computer systems for interconnection of computer hardware and software, namely, electronic connection of computers and software to each other; computer software and hardware testing and computer system monitoring services; technical project studies in the field of computer hardware and software; consultancy services in the field of computer hardware, namely consultancy regarding computing research and development; technological advisory and consulting services relating to use of internet; rental of computers and computer software;

scientific and industrial research, namely research and development of new products, biological research, research in bacteriology, research in chemistry, research in beauty care, research in mechanics, geological research , technological research, pharmaceutical research, scientific research for medical purpose; information technology [IT] consultancy; computer systems integration services; computer consulting services in the field of design, selection, implementation and use of computer hardware and software systems for others; technical support services, namely, troubleshooting in the nature of diagnosing computer software problems; computer systems design services for others; design of computer systems for interconnection of computer hardware and software, namely, electronic interconnection of computers and software computer software and hardware testing services, namely, testing of computer software, computers and servers to assure proper functioning; cloud computing services, namely, network integrated computer hardware and software services for dynamic provisioning, virtualization, and consumption metering of computer resources; providing virtual computer systems and virtual computer environments through cloud computing; design and development of computer software for cloud storage of data; cloud hosting provider services; electronic data storage and data recovery services; data security services; computing assistance by programmers, namely, troubleshooting computer software problems; Design of computer hardware for computer networks; design and development of computer hardware; quantum computing; computer and internet security consultancy and data encryption services.
